Experience

Ruby on Rails Intern | *Wolfpack Digital*, July 17 - August 25

- Developed an online restaurant management Ruby on Rails application featuring shopping cart, delivery options, and order tracking via PostgreSQL during a 6-week internship.
- Utilized *Scrum* for project management and *GitHub* for code versioning, enhancing team collaboration and mentor feedback.
- Implemented key features including a user-friendly shopping cart, a comprehensive delivery system, and real-time order status updates, alongside developing a web *API* for accessing application functionalities.

Projects

Co-founder | *Futureship*

- Aside from my college projects, I am also collaborating with two friends on an IT start-up that aims to support individuals at the early stages of their careers. As part of the team, I am responsible for handling **graphic design**, **full-stack development**, and **social media** tasks.
- We have actively participated in various technology and industry **events** and **hackathons** (*Innovation Labs Cluj*), which has enabled us to expand our knowledge and enhance our technical and interpersonal abilities.

Volunteering

InnovationLabs | *February - Present*

- Focused on creating visuals for projects and events in a collaborative team setting.
- Handled diverse tasks, contributing to ongoing projects and community support at InnovationLabs.

Asociatia "Daruieste Vise" Cabesti

As a graphic designer for Asociatia "Daruieste Vise" Cabesti, I have contributed to their events by creating free posters. Additionally, I have been actively involved in the organization of charity events.

Languages

Romanian

English

Education

economic informatics department, grade III

*Faculty of Economic Sciences and Business
Management of Babeș-Bolyai University*

OCTOBER 2021 - PRESENT

Skills

Experience with:
